Mission

MISSION

We are a professional firm providing fire / medical equipment, fire protection and OHS Training. We encourage our team members to growth through personal and professional development to enhance sustainable growth of our company. We engage in active partnerships with our clients to provide design-focused solutions with an unyielding approach toward results. While others are content with technical compliance, we are only satisfied with incident-free outcomes.

Vision

VISION

Neo Fire and Medical Supply is recognized as a professional, respected and excellent service provider in Africa.

Values

VALUES

Neo Fire and Medical Supply team members were asked to provide management with their input to establish our core values.

SAFETY

Operate in a safe, but timely manner; never work in conditions you deem as unsafe. For yourself, your team and your customer.

RESPECT

For team members, customers concerns and the tools and equipment involved in the task at hand.

INTEGRITY

Values must be demonstrated in the way you act and the way you insist others behave. Neo Fire & medical supply has integrity, no team member or customer can compromise it.

PRIDE

Pride in work and general company ethics. Craftsmanship, that I feel good about my services rendered... to meet or exceed SABS, SAQCC and Neo Fire and Medical standards.

KNOWLEDGE

Commitment to enhancing job knowledge. Our team members are qualified techs and professionals in this field.

INITIATIVE

A workforce ready, willing, and able to meet new challenges... all members pull together for the good of the company.

INNOVATION

Learn to adapt to change within a company, work with it, not against it, if a company is to grow, there must come changes.
Look for new opportunities...don't become stagnant.

Fire
Mandatory
Information
Warning

Consultation Services

CONSULTATION SERVICES

Evacuation Floor Plans (According to SANS 23601):

Floor plans are drawn to the specific layout of a client's premises and in accordance with SANS 23601.

These are done to assist organisations in ensuring the plans indicate all possible evacuation routes, emergency equipment and assembly points.

Emergency Planning:

We develop a company's required emergency plan, to ensure that all personnel and visitors act swiftly and decisively in emergency situations. These procedures and guidelines will prepare staff to handle, rectify and/or minimise emergencies that could potentially affect work activities.

Evacuation Drills with Outcome Report:

A fire drill is conducted at a client's site to assess the methods of evacuation. An outcome report is then compiled and sent to the client to help improve on its evacuation procedures.

Fire Risk Assessments:

The identification and assessment of fire hazards and risks, based on an organisation's specific risk profile and unique work environment.

Benefits of fire safety services

- Legal compliance
- Maintenance of business continuity
- Satisfies insurance compliance
- Advantageous for general safety and certification audits
- Ensures safety of everyone on-site
- Protects local community
- Reduces costs
- Enhances and improves staff's understanding of emergency processes and procedures
